

HALO®

Nitrile exam gloves

Jack of All Trades

- Soft 'rubber' like feel
- Durable, puncture resistant
- Latex free
- Powder free
- Textured fingers

"Best I Have Found!"

I have been using Halo gloves for about two years. They are thicker than standard nitrile/vinyl, yet not as thick as some other heavier gloves (a good thing) and I retain my 'finger feeling' yet stay completely protected. A nice product."

– ALEX2222

Halo is the ideal choice for a wide variety of applications. Flexible nitrile formulation delivers a durable barrier with a soft feel.
